

WGP Health, safety and environment

Health and safety policy

Definition and company commitment

WGP Group’s mission is to deliver proficient marine geophysical services in both the exploration and production sectors within the upstream oil and gas industry. Our technical expertise means we can take our clients’ ideas and turn them into safe and effective operations.

We believe that all accidents, injuries and occupational illnesses are preventable and that no harm should come to any person. Through our meticulous preparation and planning we take all reasonable steps to ensure protection of our employees and third parties.

The company complies with all legal requirements and best practises in the global context of its operational services, working methods or bases.

At WGP we run an integrated management system, which is compliant with OHSAS18001:2007. This involves regular management review, risk-assessment and corrective actions – all key elements to effective health and safety management.

We are committed to achieving the highest standards within our industry. This is represented in our core values and the company slogan ‘Exploration and Beyond’. Our core values are:

- Zero harm to health, safety and the environment.
- A quality and responsive service to our clients.
- Delivering shareholder value.
- Personnel integrity and professionalism.

Communication

All WGP companies, contractors or joint ventures under our operational control must manage health and safety in line with the commitment stated in this policy. Therefore, all parties should read this document.
